

Historically, the University of Maine System (UMS) has reported the number of Maine high school students who matriculated at one of our institutions directly out of high school and who required enrollment in one or more remedial/developmental courses (in accordance with Public Law 2011, Chapter 615). Although the compilation and reporting requirements regarding remedial education is no longer legally required after July 1, 2016, the UMS continues to provide statistics related to remedial education.

This report includes the following:

- A summary of the number of students enrolled in remedial courses disaggregated by the subject areas of English language arts and mathematics – this data is presented by campus;
- A summary, by Maine high school, of students who graduated June 2017, matriculated into one of our institutions, and who required one or more remedial/developmental classes. Of the 2,288, Maine high school students who matriculated in Fall 2017, 171 (7.5%) required one or more remedial/developmental classes;
- A summary of the retention rates of those students in the Fall 2016 cohort; retention rates nationally are tracked fall-to-fall semester. Note that graduation rates for this cohort will not be available until 2020 assuming a 4-year graduation rate. We also have included additional information on students who may have left the institution originally attended but who subsequently enrolled at another.

Attachment 2: Fall 2014 Cohort Returning in Fall XXX	3
Attachment 3: Secondary Schools Sending to UMS for Fall XXX	4-7

Special Notes related to the Remediation Report

For the purposes of this report, we have employed the following guidelines:

For the report related to 1A and 1B [Enrollment in Remedial Coursework] of the legislation:

- “Traditional student” is defined as a student who has attended any accredited public school or private school in the State or who participated in a home instruction program and has received a high school diploma in the June proceeding the fall in which the student matriculates. For the purpose of the report submitted January 2018, the student would have received the high school diploma in June 2017;
- “Remedial courses” are those within English language arts (including ESL) and mathematics, and defined as courses below the 100-level. There are multiple offerings in each subject and they will be disaggregated by subject area but not by the individual course;
- Students may be enrolled in more than one course in a semester; the “duplicated” number includes all courses;
- “Unduplicated” students are those enrolled in any remedial course. For those schools for whom five or fewer students were enrolled in a remedial course, an asterisk (*) will appear;
- A new report will be issued each year specific to that year’s graduating class in Maine’s high schools.

For the report related to 1C – Retention and Graduation:

- Typically, retention rates nationally are calculated utilizing a fall-to-fall picture of the data. So, this would take the class which received its high school diploma in June 2016 and track its retention from Fall 2016 to Fall 2017.
- The report includes only aggregate reporting by university of those traditional students who were enrolled in remedial classes and will not include data disaggregated by English/math or secondary school.

Attachment 1 – University of Maine System Total for Fall 2017

Fall 2017 Cohort – Summary of Traditional¹ First-Time Students² from Maine Secondary Schools Students from Secondary School in Remedial Courses by UMS Institution

Percentage Remedial⁶	21.6%	13.7%	15.7%	19.4%	0.0%	13.1%	0.0%	7.5%

Students from Secondary School in Remedial Math and English by UMS Institution

	UMA	UMF	UMFK	UMM	Umaine	USM	UMPI	UMS Total
Total Matriculated in Remedial Math	27	44	8	12	0	74	0	165
Total Matriculated in Remedial English	0	0	9	0	0	0	0	9
Number of Students Enrolled in Both Remedial Math and English	0	0	3	0	0	0	0	3

Notes: The University of Maine and University of Maine at Presque Isle are moving away from offering remedial coursework and did not offer remedial coursework in Fall 2017.

¹ Traditional Student is defined in LD1645 as a student who has attended any accredited public school or private school in the State, or who has participated in a home instruction program pursuant to section 5001-A, subsection 3, paragraph A and has received a high school diploma, GED or adult diploma in the June preceding the fall in which the student matriculates in the [Maine Community College System][University of Maine System].

² First-time students are students with no prior postsecondary experience attending any institution at the undergraduate level, including students enrolled in academic or occupational programs. It also includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing (college credits earned before graduation from high school).

³ Matriculated indicates students who have been accepted into and have enrolled in a degree-granting program.

⁴ Students may be enrolled in more than one course in more than one subject in a semester, and this total includes all courses.

⁵ The total unduplicated number of students enrolled in any remedial course. In accordance with the language in the Act, and to protect student identity, the colleges "may not report disaggregated information compiled under subsection 1 if the total number of traditional students who received high school diplomas from the same secondary school and enrolled in the same remedial course at the same campus is five or fewer". In this case, an asterisk (*) appears in the cells on the following pages and indicates: "Five or fewer students."

⁶ Remedial courses in English and math are defined as courses below the 100-level offered by the colleges. There are multiple course offerings in each subject, and they are aggregated by subject area. Starting in Fall 2015, a college experience course offered by UMFK is included in counts of both remedial math and English.

Total	207	103	49.8%	17	8.2%	24	11.6%	144	69.6%	63	30.4%

⁷ Retention for all campuses and UMS for the purposes of the report is defined as any student enrolled in the previous Fall semester returning to the same UMS campus in the following Fall.

⁸ Not enrolled at any institution means that the student was not found in the UMS PeopleSoft Database or the National Student Clearinghouse as enrolled in a college or university on December 1, 2017.
